MASSACRE OF JEWS

Waylaid by Peasants For Purposes of Robbery.

WERE CLUBBED TO DEATH

Shocking Fate of a Party of Russian Jews that Had Started to Cross the Austrian Frontier for the Unted States.

Budapest, July 20.—The newspapers say that thirty-seven Russian Jews started to cross the Austrian frontier at night without passports, their destination being America. They were waylaid by peasants in the village of Zwonitz for the purpose of robbery. Twenty-five, including women and children, were clubbed to death.

The frontier guards reached the scene in time to prevent the robbery of the travelers and to arrest several of the murderers.

DISCREPANCY OF $39,000.

Bank Examiner Takes Charge of Gallatin, Tenn., Bank.

Gallatin, Tenn., July 20.—United States Bank Examiner M. E. Patterson has taken charge of the Peoples' National bank, of this place, a discrepancy of $39,000 having been found in the accounts.

The discovery was made by the assistant cashier during the absence of Cashier F. G. Harris, who is ill at the home of his father-in-law, Judge William Hall. The latter, in a statement made for his son-in-law, asserts that Harris is straight with the bank and that, but for his illness, there would have been no trouble.

The bank has a capital of $50,000; undivided profits of $14,500, and deposits aggregating $140,000. Of the shortage, $29,000 is said to be in unaccounted for discount paper; $7,000 in ordinary accounts, and $3,000 in unidentified entries. The discounts, unless they should be forgeries, will not represent a loss to the bank, the holders suffering, and it is therefore probable that actual loss to stockholders will not exceed $10,000.

It is expected that the bank will soon resume business. Other banks in the town were prepared for emergencies but there were no indications of a run.

SAYS ORCHARD WILL HANG.

Former Attorney Bagley, of Idaho, on Haywood Case.

New York, July 20.—"There is just one thing absolutely certain about the Haywood case," said John A. Bagley, attorney general of Idaho, in 1902-1904, who is in this city, "an dthat is, no matter what may happen to Haywood and his associates in the Miners' association, Harry Orchard, the self-confessed assassin of Governor Steunenberg, will be hanged.

"Orchard has not been promised immunity in Idaho, and even if he were extended executive clemency, he has confessed to thirteen murders outside the state of which he could be convicted and from punishment which Idaho could not absolve him.

"How the Haywood trial will end, no one knows. All the people want—and in this they are a unit—is that exact justice be done."

Young Man Drowned in River.

Columbus, Ga., July 29.—Charles Brown, a young man of Columbus, was drowned in the Chattahoochee river north of Columbus Thursday. He had gone in bathing, and either got beyond his depth or was swept away by the current. His clothing was shortly afterwards found on the bank of the stream. Search for his body is now in progress.

Cruse is Dying.

Boston, July 20.—With the exception of Midshipman Cruse, the sailors injured by the accident on the battleship Georgia Monday will probably all survive, was the opinion given by Dr. P. T. Desse, of Chelsea naval hospital, where the twelve men are under treatment.

LAMANA MURDER CASE.

Italians Ave Found Guilty Without Capital Punishment.

Hahnville, La., July 20.—A verdict of guilty without capital punishment was returned in the case of Campisciano, Mrs. Campisciano, Tony Costa and Frank Gendusa, the Italians accused of kidnaping and murdering the little Lamana boy.

The verdict was returned just before dark Thursday after the jury had been out forty-five minutes, and at the close of a four days' trial.

The jury declared that their verdict was unanimous, and then court adjourned.

The state did not succeed in proving that any of the accused committed the actual murder. Campisciano and his wife shielded the kidnapers from capture, even throwing a party of police off the trail when they were within a short distance of the boy's hiding place, about an hour before his murder.

Testifying in his own behalf Campisciano did not deny this, but claimed that he had been forced by threats of death to act as he did.

Collagero Gendusa was the go-between for the ransom money, and Costa, according to witnesses, stole the boy and gave hi otm the kidnapers.

Campisciano testified that the actual murderers were Angelo Incarcaterra, Tony Gendusa, Steffano Monfre and Chico Luchesi. These four have not been captured.

Campisciano also implicated in the plot Leonardo Gebbia and Nicolina, Gebbia's sister, both of whom will be tried next week.

LYNCHING WAS AVERTED.

Prompt Action of Governor Blanchard Saved Italians' Lives.

New Orleans, July 20.—With the peaceable dispersal Friday of a posse of 300 men who had formed at Gretna, La., to lynch three of the Italians convicted of the Lamana murder an acute crisis in th elaw and order record of this state was safely passed.

This posse was the last of several small mobs which formed at widely separated points and talked about hanging the Italians if favorable opportunity presented.

Probably Governor Blanchard's prompt action in ordering out two companies of state militia within two hours after the verdict, saved tre Italians' lives.

The soldiers arrived at the Hahnville jail, where the prisoners were confined, in time to forestall plans which were on foot to take posses from New Orleans either by boat, wagon, special train or automobiles.

Nearly one hundred soldiers guarded the lonely and exposed Hahnville jail Friday, and it may be necessary to keep them on duty there until the Italians are removed to a safer place.

The prisoners must first be sentenced.

More Troops Sent.

New Orleans, July 20.—Two more commands of Louisiana troops were sent Friday morning from here to Hahnville, St. Charles parish, where a jury on Thursday brought in a verdict of guilty without capital punishment in the case of the four Italians charged with the murder of little Walter Lamana, who was kidnaped here early in June. One command consisted of a battery of field artillery with rapid-fire guns and the other a company of infantry. There is no apprehension of immediate danger, but in order to make less arduous the work of the two companies of infantry already at Hahnville, the additional troops were ordered to the St. Charles Parish courthouse to aid in guarding the prisoners.

Lightning Set Fire to Barn.

Marshallville, Ga., July 20.—Lightning set fire to the large barn of J. B. Jones, a prominent planter, near here, Tuesday afternoon, and burned it to the ground. Two horses, ten hogs as well as quite an amount of provender were destroyed. Mr. Jones will be remembered as the captor of Sam Hose, for whom a large reward was offered. This is quite a loss, but Mr. Jones has a fine peach crop to offset it.

PROF. C. L. PRIBBLE IS IN BAD SHAPE

Had a Fit in Hemming Park and Was Placed Under Arrest.

RELEASED BY THE CITY COURT

But Found to Be Indisposed and Without Funds, and Sent to Hospital. Claims He Was Arrested and Ill Treated in Gainesville.

The Metropolis of Thursday, the 18th inst., contained an interesting notice relative to the arrest of C. L. Pribble in Hemming Park of that city, his subsequent release, after it was learned that he was subject to epileptic fits, and his final admittance to the hospital in an indisposed condition, without funds.

Pribble stated that he had visited several cities in Florida, lecturing on the mosquito, and that he had been arrested and ill treated in Gainesville, which is not true. It is a fact that Pribble was here about two months ago, and that he did attempt to deliver a lecture in the auditorium of the Gainesville Graded and High School, but in the midst of the lecture he was taken from the rostrum in a fit, which ended the program. The Sun said nothing about it at the time, in respect to the young man's feelings. He was never arrested or ill treated here, and left the city two or three days after the incident at the auditorium.

Was Treated Well.

Instead of being arrested, as he stated to The Metropolis, young Pribble was taken in here and shown every courtesy by a kind public. His credentials brought out the fact that he was well versed on the subject of mosquitoes, and he carried the endorsements of many of the prominent people of the country. It was noted, however, that he was addicted to the use of chloroform, and those who know him looked upon him with pity rather than contempt, and did everything possible for his success here.

WORTHINGTON ITEMS.

Worthington, July 20.—Rev. G. W. S. Warr has just completed a very successful series of meetings at the Little Springs Baptist church. There were several new additions to his flock and he baptized them in the pool here.

M. H. McClamroch and H. O. McArthur spent Sunday here.

C. A. Anderson spent Sunday here with his wife and children.

Miss Eva Barclay has returned to her home at Ellarbee, Ga., after spending several days with her cousin, Mrs. C. A. Anderson.

Mrs. J. B. Kennard and Miss Elizabeth of Waldo have returned home.

W. F. Hughey of Clearwater stopped here for a day and met some of his old friends, who are always glad to see him.

C. Y. Crawford of Gainesville, after spending several days here recuperating, left yesterday for Atlanta.

Leonard Blankner of Baltimore was the guest of I. F. Lamb on Sunday last.

Quite a crowd from Lake Butler spent the day here last Sunday. Among the number were Dr. and Mrs. J. P. Tomlinson.

Miss Mamie Ponds of Lake Butler and Miss Grace Hatchell of Ocala are the guests of Mrs. Miller.

Rev. Miller and wife of Lake Butler have taken a cottage here for two or three weeks.

Judge and Mrs. A. S. Cone, formerly of Gainesville but now of Raleigh, are here for a few weeks.

Ask the genial and obliging agent, R. L. Lockhart, and Mr. Galemon, the kind and obliging clerk for the Lamb Shoe and Clothing Co., how fish bite on Sunday.

Miss Lillie Belle Milhoin and little sister of Newberry are the guests of Misses Mabel and Ethel Lamb.

Misses Lamb and Jennings are building a tennis court in the park.

KOREAN EMPEROR QUITS.

Dramatic Scene When Ministers Request His Abdication.

Seoul, July 20.—It is reported that a most dramatic scen eoccurred at the Palace Thursday when the ministers, headed by Premier Yi Yong, appeared before his majesty and made the cabinet's final representation in urging the emperor's abdication.

His majesty was in a high state of excitement, but the premier in an humble but firm tone dwelt at length upon want of precaution and prudence of the emperor's policies hitherto, especially in diplomatic affairs, whereby he was endangering the safety of the nation. The premier enumerated the facts of his majesty's duplicities which culminated in the dispatch of a deputation to the Hague peace conference and forcibly reasoned the uselessness of the emperor's disavowal of his relation with the Hague affair.

Unable to successfully combat the logic of the premier's representation, the emperor sought a last refuge in the council of elder statesmen, doubtless anticipating their sympathies.

The council immediately convened. Four elders responded and appeared before his majesty at 1 o'clock Friday morning. The emperor's disappointment and surprise was boundless when they unanimously agreed with the minister's advice. His majesty's mind was finally made up and he consented to the draft of an imperial rescript announcing his abdication, which was placed before him for his signature.

The emperor's condition was indescribable. Greatly agitated and perturbed he signed the document and the seal was affixed in impressive silence. A suppressed sigh from the emperor was the only sound which broke the death-like stillness that reigned throughout the memorable scene.

Populace is Enraged.

Seoul, July 20.—Enraged crowds are assembled at various points all through the city and inflammatory documents against the Japanese are being freely distributed, giving rise to a forlorn hope that some change is about to begin.

Extraordinary police precautions are being taken throughout the city.

PHENIX CITY ALSO AFFECTED.

Prohibition for Georgia Will Make Two Alabama Towns Dry.

Columbus, Ga., July 20.—What might be termed the Alabama consequences of the proposed adoption of state prohibition by Georgia continue to grow.

A few days ago an Alabama law, ten years old, was resurrected providing that when Columbus goes dry, prohibition shall also be in effect in Girard, Ala., just across the Chattahoochee river from Columbus.

There is another Alabama city just across the line from Columbus, Phenix City, with 5,000 inhabitants, and the statutes have been again searched and another law dug out, providing that when Columbus and Girard go dry, Phenix City shall also join the prohibition ranks.

This act was passed by the Alabama legislature in 1897. The chain of consequences is rather interesting, the life of Girard saloons depending upon the prohibition status in Columbus, a city in another state, and the "dryness" or "wetness" of Phenix City being governed by the liquor status in two other cities, one in Georgia and one in Alabama.

Polo Tournament Begins.

Chicago, July 20.—Polo enthusiasts and society folk gathered in force at Lake Forest Friday for the opening match of the championship polo tournament between the Buffalo and Oweatsia teams in the junior series on the Oweatsia Club grounds. The tournament will continue until July 27. Some of the best known polo players in the country will take part in the tournament.

Columbia, S. C., July 20.—It is reported here that an express package of $10,000 has been lost at the Florence, S. C., office. Superintendent Dimmo, of the Pinkertons, and three route agents have been here working on the case for several days.

DAMAGE FROM STO

Wind and Rain Wrought [illegible] in Missouri.

MANY HOUSES ARE WRE[illegible]

Cloudburst Accompanied Tornado—Wind and Rain Drove People From Their Possessions—Narrow Escape From Death.

St. Joseph, Mo., July 20.—A tornado and tremendous rain did damage in St. Joseph and vicinity Thursday night. Houses were unroofed, street railway tracks washed and cellars flooded.

The family of [illegible] mile east of the city, had a narrow escape from death. The residence, two stories in height, was demolished from the foundation and three children had a narrow escape in the basement. They were buried under the debris, but escaped the house bodily from the foundation and none of the timbers fell on them.

Scores of houses were moved from their foundations in the city by the rain which amounted to [illegible]

In Brookfield, a number of families were driven from their houses by water. A dozen persons were struck by lightning, but fatalities are reported.

The loss to the growing crops will be heavy.

Kansas City, July 20.—A heavy rainstorm which caused the Missouri river to rise a foot in this city as a result, the cellars in many wholesale houses in the west part of the city were partially flooded.

Stocks laid away in expectation of safety and the damage to property was slight.

Truck gardens at Quindaro, on the outskirts of Kansas City, Kan., on the Missouri river, have been suffering damage since Wednesday, and several truck farmers and families are marooned on their farms.

The stage of the river at Kansas City Friday morning was 20.2 feet. There are no further rains reported in the northwest, but the Missouri river will still be on a rise for several days, and fears are entertained of a further overflow of the bottom lands, unless the weather changes.

COMPARATIVE [illegible]

Strength of Great Powers Given Parliament.

London, July 20.—[illegible] returns has just been issued showing the comparative strength of the principal powers in completed battleships less than 10 years old and those under construction or projected, on June 15.

Great Britain has 29 battleships, which eighteen are considered obsolete type. The United States has eighteen battleships, of which seven are considered obsolete; Japan has six battleships, four of which are obsolete and Japan eleven, of which seven are obsolete.

Of cruisers, Great Britain has thirty-two; the United States, nine; France eighteen; Germany [illegible] ten.

Athens Man Committed Suicide.

Athens, Ga., July 20.—Dr. Pittman, aged about 60, committed suicide at his home Thursday. He shot himself in the heart with a pistol, causing death except ill health is supposed to be the cause. He leaves a wife, daughter and a brother living in Texas.

Sandstone Falls Steamer Sunk.

London, July 20.—The steamer Sandstone, 1,000 tons, struck a rock about a mile and a quarter from the Welsh coast on the Bristol channel yesterday, and sank in deep water. All on board were saved.

CUT OUT DANCING IN SCHOOL-HOUSES

The Practice Must be Abandoned. Says the School Board.

A VERY STRINGENT ORDER

Complaints Were Made to the Board by Patrons of Some Sections, Which Led to the Adoption of the Order Which Will be Enforced.

The members of the Board of Public Instruction evidently agree with a number of complaining patrons of the various schools throughout the county in the matter of using certain schoolhouses as dance halls, with the result that, after patiently and attentively hearing the complaints, which were numerous from some sections, a resolution was unanimously passed prohibiting the use of any public schoolhouse in Alachua county, supported by the county, for the purpose of giving dances, and the secretary was instructed to enforce this order to the letter.

Those who have a weakness for "tripping the light fantastic toe" must seek other resorts than schoolhouses of the county to satisfy their desire in future.

The passing upon the matter only a few moments was required. The members of the board had nothing to say regarding the impropriety of dancing, but it was evident by their prompt and unanimous action that they were inclined to believe that a house of education, where children's minds and ambitions are trained to high and noble things, was not the proper place.

Superintendent Kelley, in commenting upon the order, stated that the instructions from the board would certainly be carried out, and that in future the rule would be strictly enforced.

This ends the practice of using the county schoolhouses as dance halls.

"A HOT OLD GAME."

Oak Halls Returned from Palatka With Another Defeat on Shoulders.

It must have been a "hot old game" played between the Oak Halls and nine of the Gem City Thursday afternoon, as the score fell to the bad for the Oak Halls by a tally of 11 to 4. Manager Frank Clark, Jr., of the Oak Halls stated that the defeat of his team was due to the uneven surface of the ground, the roots, palmetto grass, etc., among which his players were not accustomed to playing, and that they could not manipulate the ball.

The Oak Halls were to have proceeded to Daytona Friday, but returned home.

Death of Frank M. Butler.

The many friends in this county of Frank M. Butler will regret to learn of his death, which occurred at his home in Jacksonville at 3:30 on the afternoon of July 10, from an attack of Bright's disease.

Mr. Butler was born in Savannah, November 20, 1851, and was for many years in business there. In 1879 Mr. Butler moved to Levyville, Fla., having in 1879 married Miss Annie Turner, daughter of the late Thomas S. Turner. In September of 1906 Mr. Butler moved to Jacksonville. He was a man of kindly, dignified and polished manners, and had a host of friends, who sympathize with his devoted wife and loving children in their great loss.

He is survived by three brothers and three sisters, all of Georgia, and five children, J. T. Butler, an attorney of Jacksonville; Mrs. Chas. F. Stone of Atlanta; and four younger children, Frank, Chauncey, Mary and Elizabeth. The funeral was held at 4 o'clock Thursday afternoon in Bonaventure cemetery.—Bronson Times-Enterprise.

Your Liver

Is out of order. You go to bed in a bad humor and get up with a bad taste in your mouth. You want something to stimulate your liver. Just try Herbine, the liver regulator. A positive cure for constipation, dyspepsia and all liver complaints. Mrs. [illegible], Ft. Worth, Texas, writes: "We have used Herbine in my family for years. MUST PUBLISH ORDINANCES.

Section 10 of City Charter Reinstated by Act of 1907.

Replying to the request for his opinion as to whether the City Council of Gainesville is required to publish in a newspaper all ordinances enacted since May 20th, 1907, under Section 5 of the act of 1907 amending the city charter enacted by the Legislature of 1905, one of the leading lawyers of the State has rendered the following opinion:

"Jacksonville, Fla., July 16, 1907.

"Hon. H. H. McCreary,

"Gainesville, Fla.

"Dear Sir: Yours of the 12th inst. to hand. I have examined the late Act of the Legislature amending the charter of Gainesville, and I am of the opinion that the meaning of Section 5 of this Act in repealing "all amendments heretofore adopted to this charter" is to include only such amendments as may have been effected by ordinances passed by the City Council and ratified by the people. Now an ordinance adopted by a municipal council, which is duly authorized so to do, may change as to such city the provisions of a legislative act, but it cannot repeal such legislative act. None but the Legislature can repeal one of its enactments. The effect of the city ordinance approved Aug. 9th, 1906, was to suspend the effectiveness of the legislative act of 1905 in Gainesville, and to substitute in its stead, by express legislative sanction, a modified rule on the same subject, for the time being, but it did not and could not repeal the legislative act. If the City Council had subsequently, by ordinance ratified by the people, simply and merely repealed said ordinance of Aug. 9th, 1906, the legislative act of 1905 would have at once been revived and would have ex instanti stepped into the shoes of the repealed ordinance. Now, if you will observe, the language of Section 5 of the last act of the Legislature is: "All laws or parts of laws in conflict with this act" are thereby repealed. No law is repealed by it that does not conflict with it. There is nothing in the act that conflicts with the provisions of Section 10 of Chapter 5497, laws of 1905, so that said section 10 of said last named chapter is not repealed, but it is still in full force and effectiveness, the city ordinance suspending it and substituting something else in its place having been repealed and annulled.

"Very truly,

"_____."

The Sun representative has also obtained the verbal opinion of a number of the leading members of the Gainesville bar, and each of them agreed with the opinion given, though not one of them was aware of the fact that a written opinion had been obtained from the member of the Jacksonville bar. As several ordinances have been passed by the City Council since the amendment of the city charter took effect on May 20th, 1907, no such ordinance is legal or effective until it has been published in a newspaper, as provided in Section 10 of the act of 1905.

Cheerfully Recommended for Rheumatism.

O. G. Higbee, Danville, Ill., writes, Dec. 2, 1901: "About two years ago I was laid up for months with rheumatism. I tried Ballard's Snow Liniment; one bottle cured me. I can cheerfully recommend it to all suffering from like affliction." 25c, 50c and $1.00. Sold by W. M. Johnson.

TWO WOMEN IN TROUBLE.

Persisted in Fighting, Which Terminated in Heavy Costs.

This fighting business is an expensive proposition, to say nothing of the result of broken heads, etc., which might and frequently do result from such episodes.

A war with sticks and knives followed a war of words between Clara Cullen and Minnie Tompkies, two colored women, Wednesday night, in which it appears that Minnie got the worst of it, Clara being the aggressor. Roosevelt is not the only one who can wield a "big stick" as Clara demonstrated when she struck her opponent over the head with a cudgel, afterward, it is said, going at her with a knife and cutting her clothes.

As is the sequel with a majority of cases among the colored women they had each other arrested, and were arraigned in Mayor's court Thursday morning, when they were assessed a fine of $5 and costs each.

There's an old adage that trouble never comes single-handed, and it was never more true than in the case of Clara in this instance, for she was immediately arrested upon a warrant sworn out by Minnie before Justice Colman, charging assault and battery. Clara was hauled up before Justice Colman—then came a dose harder to swallow than before, for in this court she was compelled to pay a fine of $10 and costs.

MRS. BAILEY'S SOCIAL.

People of North Gainesville Enjoyed Themselves Tuesday Night.

The home of Mrs. O. B. Bailey, North Gainesville, was the scene of a most enjoyable time Tuesday evening, the occasion being a social and ice cream supper, the proceeds being devoted to the benefit of the Advent Christian church.

There was a good crowd present, as is usual with all entertainments in this favored section, and the program, which was of a musical and literary nature, was one of the best and most enjoyable ever rendered. The program, in fact, was so interesting that the entertainment was repeated in part Wednesday evening.

Financially and otherwise the social was a grand success, and one which will be remembered by those who were present.

Gainesville National Bank.

Attention is directed to the advertisement of the Gainesville National Bank, which appears elsewhere in this issue.

This institution, which is one of Gainesville's latest financial ventures, is one of the strongest and most conservative in the State, and will begin business on Monday next.

A glance at the officers and directors of this institution will convince anyone that its affairs will be transacted in a liberal but conservative manner, and it goes without saying that the Gainesville National will enjoy its share of the patronage.

The Doctor Away from Home When Most Needed.

People are often very much disappointed to find that their family physician is away from home when they most need his services. Diseases like cramp, colic and cholera morbus require prompt treatment, and have in many instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life. For sale by all druggists.

A Pleasant Party.

W. C. Newbern and family and Mr. and Mrs. Kinkaid of Live Oak spent Thursday at the Sink, enjoying a fish fry.

The party went well prepared for a good dinner, but fortunately the fish were biting well, and they enjoyed in addition a fine feast of the finny tribe.

The party returned late in the afternoon a tired but happy set.

Take the Postmaster's Word for It.

Mr. F. M. Hamilton, postmaster at Cherryvale, Ind., keeps also a stock of general merchandise and patent medicines. He says: "Chamberlain's Colic, Cholera and Diarrhoea Remedy is standard here in its line. It never fails to give satisfaction and we could hardly afford to be without it." For sale by all druggists.

THE SCHAFERS CAME NEAR MEETING DEATH

Were on Board the Steamship Allegheny. Burned Off Tybee.

BARELY ESCAPE WITH LIFE

Were Rescued by the Ship's Boats and Returned to Savannah—News Received Here With Great Interest by Friends of the Schafers.

From Friday's Daily Sun:

As will be seen from The Savannah News of the 18th inst., Mr. and Mrs. R. T. Schafer and child of this city, who were en route to the Jamestown Exposition, came near either being cremated or meeting a watery grave Wednesday night at 10 o'clock, when the steamship Allegheny of the Merchants' & Miners' Line took fire and was burned to the water's edge, three hours later after leaving Savannah, and just after the steamship had cleared Tybee light.

The ship was discovered to be on fire near the engine room, and almost before a general alarm could be sounded was enveloped in flames. There were twenty-six passengers, among whom were Mr. and Mrs. Schafer and child. The passengers were finally rescued by the ship's boats and taken to a government dredge, when they were returned to Savannah.

The passengers lost all their baggage, and were fortunate to escape with their lives.

Friends of Mr. and Mrs. Schafer regret the disturbance in their trip so pleasantly arranged and anticipated, but congratulate them upon coming out alive.

A SENSATIONAL MARRIAGE.

Two Young Colored People United in Matrimony by Judge Mason.

There transpired somewhat of a sensational marriage in Judge Mason's office Thursday morning, the contracting parties being two well-known and well-to-do colored people of Gainesville. The groom is only eighteen, while the chocolate-colored bride has the burden of only sixteen summers on her shoulders.

The ceremony attracted a great deal of attention, the room being crowded with the curious.

The parties were arrested for improper conduct, and spent Tuesday night in jail, it is said. They were released upon their own recognizance Wednesday morning, the hearing in the case being postponed until Thursday.

When the defendants appeared before the Judge he gave them the option of prosecution or marriage, with consent of their respective parents. The "pen" as pictured to them was not at all a pleasant view, hence they decided to "tie up" and settle the matter.

R. A. TURNER HAS PASSED AWAY.

Death Occurred Thursday Morning at Alachua.

Col. W. T. Weeks received a telegram Thursday morning from Alachua announcing the death of Mr. Robert A. Turner, which occurred at 7 o'clock that morning. Mr. Turner was a brother of Mrs. Weeks and she has been at his bedside for several days.

The deceased was a native of Bradford county and grew to manhood on his father's farm near Providence. He was a man of fine character and had many friends in this county who will be grieved to hear of his death. For about twenty years he had been a sufferer from rheumatism, and during much of that time he had been compelled to go on crutches. During the past six or eight months he had been unable to walk and had to be wheeled about in an invalid's chair.—Starke Telegraph.

For Assault and Battery.

Deputy Sheriff I. T. Walker on Thursday arrested at Fairbanks Joseph Scarborough upon a charge of assaulting a companion. The charge is assault and battery, and the prisoner, when brought before Justice Colman, was placed under a bond of $105 for his appearance Monday morning.

In speaking of the matter Friday, Justice Colman stated that he did not believe there was much virtue in the case, but that it was merely a trivial matter, as both parties had endeavored to settle the costs and withdraw the case.

All parties are colored.

Banana Cream.

Peel five large bananas, rub smooth with five teaspoonfuls of sugar. Add one cup sweet cream beaten to a stiff froth, then one package of Lemon Jell-O dissolved in one and one-half cups of boiling water. Pour in mold or bowl and when cold garnish with candied cherries. Serve with whipped cream.

CAT HYPNOTIZED SNAKE.

Interesting Sight to Lookers-On in a Grocery Store Here.

What proved to be one of the most interesting spectacles ever seen was witnessed here a few nights ago when a pet cat in a grocery store completely charmed and killed a five-foot rat snake.

Some persons in the store noticed the cat's peculiar actions, as if though it had something at bay. Investigation developed the fact that a huge snake was concealed behind a sugar barrel, completely at the mercy of the cat, which was steadily creeping upon the reptile.

Suddenly the feline sprang upon his victim, catching it in the nap of the neck. The reptile wriggled vigorously for a time, but his cat-ship held on with determination, finally coming out the victor.

The snake measured five feet from head to tip.

About the New Postal Card.

Postmaster Crom says that general interest will be taken in the new order of Postmaster-General Meyer, effective August 1, providing that the face side of a post card may be divided by a vertical line placed approximately one-third of the distance from the left end of the postal; the space at the left end to be used for the message, the portion to the right to be used for the address only. In addition to this concession the order states that a very thin sheet of paper may be attached if it completely adheres to the card, and such a paster may bear both writing and printing. Advertisements, illustrations or writing may appear upon the back of the card and on the left third of the front. Postal cards bearing particles of glass, metal mica, sand, tinsel or other substances are declared to be unmailable, except when enclosed in envelopes with proper postage affixed or when treated in such a manner as will prevent the objectionable materials from being rubbed off or injuring the hands of the persons handling the mails.—Ocala Banner.

Best Medicine in the World for Colic and Diarrhoea.

"I find Chamberlain's Colic, Cholera and Diarrhoea Remedy to be the best remedy in the world," says Mr. C. L. Carter of Skirum, Ala. "I am subject to colic and diarrhoea. Last spring it seemed as though I would die, and I think I would if I hadn't taken Chamberlain's Colic, Cholera and Diarrhoea Remedy. I haven't been troubled with it since until this week, when I had a very severe attack and took half a bottle of the twenty-five cent size Chamberlain's Colic, Cholera and Diarrhoea Remedy, and this morning I feel like a new man." For sale by all druggists.

BALLOT BOXES SENT OUT.

Superintendent Kelley Sent Out Many Boxes for Special Districts.

County Superintendent Dr. J. L. Kelley and his deputy, Forrest Kelley, were busy all day Friday preparing the ballot boxes for thirty special districts, at which an election for trustees will be held on the 23rd inst.

The sub-school district is taking on quite an important part in school work now, and a great many of the patrons—in fact ninety per cent of them—are greatly in favor of the sub-school district, as it gives them better advantages for their children.

Constipation.

For constipation there is nothing quite so nice as Chamberlain's Stomach and Liver Tablets. They always produce a pleasant movement of the bowels without any disagreeable effect. Price, 25 cents. Samples free. For sale by all druggists.

GOVERNMENT BIDS TO BE OPENED TODAY

Matter of Gainesville Public Building to Be Settled.

WILL BE HANDSOME STRUCTURE

The Appropriation Was $75,000 and the Contract Will be Let Today at the National Capital to the Lowest and Best Bidder.

From Friday's Daily Sun:

In compliance with the advertisement which appeared in The Sun, the bids for the erection of the United States Government building will be opened at the National Capital today, which will be another step toward the actual construction of the building. The Treasury Department several weeks ago advertised through The Sun and other papers for bids for this building, the advertisement stating that plans and specifications could be secured by any legitimate contractor.

The information as to who will be the successful bidders and the price will be watched here with a great deal of interest. It is understood that work will begin as soon after the bid is accepted and approved, and the material can be placed on the ground, as possible.

As has been before stated, this building will cost about $75,000. It will be located on a site known as the old Oak Hall estate, at the foot of East Main street S., and three blocks from the square, facing north. The building will be a modern one, containing basement and two stories. The lower floor will be used for the post-office, while the upper story will be devoted to the United States land office. The building and its furnishings will be up-to-date throughout, and the structure will prove a credit to the city and the State.

It is estimated that about nine months will be required to finish the building.

Filling in the Street.

Pedestrians will be glad to learn that the Atlantic Coast Line has at last decided to fill in the depressions at the corner of West Main street N., and Mechanic streets, notwithstanding that the material being used is the "klinker," or burnt coal, and refuse from the engines.

This has been one of the worst places in the city, on one of the principal thoroughfares, and it has been almost a matter of impossibility to pass the place without stepping over ankle deep in water during a rainy season even of two days' duration. It is hoped the "filling in" will accomplish at least a temporary relief to those who are compelled to go that way.

To Normal Students.

The social for students of the Summer Normal which occurred at the home of Prof. and Mrs. T. F. McBeath Thursday night was well attended, and proved a most enjoyable affair.

The hospitable home of Prof. and Mrs. McBeath, which is one of the most comfortable in Gainesville, was thrown open to the students of the Normal under the auspices of the Epworth League of the First Methodist church. The evening was passed in a most enjoyable manner, there being an instrumental and vocal program.

Delicious refreshments were served, which were highly enjoyed by those who were present.

The Smile

That won't come off appears on baby's face after one bottle of White's Cream Vermifuge, the great worm medicine. Why not keep that smile on baby's face? If you keep this medicine on hand, you will never see anything else but smiles on his face. Mrs. S——, Blackwell, Okla., writes: "My baby was peevish and fretful. Would not eat and I feared he would die. I used a bottle of White's Cream Vermifuge and he has not had a sick day since." Sold by W. M. Johnson.

Mr. Hearst's New York American notifies its readers that the Independence League is to be made a National organization. Is this to be considered a notice that Mr. Hearst will be the League's candidate for President? If so, Democrats should be wary of encouraging the circulation of the Hearst newspapers, and thus give encouragement and aid to those who will try and defeat the Democratic ticket.

At a meeting of the State Board of [illegible] held in Tallahassee on July [illegible], 1907, at which the Governor, Comptroller and Treasurer were present, the following resolution was adopted: "Resolved, That persons entitled to pensions under Chapter [illegible], Acts of 1907, who apply for the amount allowed in case of total disability, must submit the affidavit of a reputable physician stating specifically the personal ailment and conditions that render the applicant entirely helpless and incapacitated, physically or mentally, for any work or business."

In 1906, according to the report of the Commissioner of Agriculture, there were 2,645 farms in cultivation in Alachua county, divided between the white people and 876 negroes. It will thus be seen that a large number of Alachua county's colored population are industrious tillers of the soil. The total acreage in farms was [illegible], of which 87,169 acres were improved and 127,935 acres unimproved, the total value, including land and improvements, with buildings, farm implements and machinery, being $1,777,280, buildings separately being valued at $492,770.

The Sun has repeatedly called attention to the violation of an ordinance prohibiting the cutting up or destruction of the streets of the city by logging carts, but this seems to have little effect, with the result that numerous carts of this description continue to pull logs along Arredondo street. Anyone who knows how a street is constructed, knows also that it is one of the most destructive instruments which could be placed on a public thoroughfare, disastrously cutting up the streets and roads wherever they are operated. The attention of the city authorities is again called to this violation of the law, which should be stopped.

The following interesting news item is taken from The Times-Union "Short Stuff" column: "The Miami News says that the aged negro body-servant of Jefferson Davis, who claims to be the only living person who knows the whereabouts of the great seal of the Confederate States, is now in Colorantown, a suburb of Miami. It will be remembered that he has been offered in vain money enough to keep him in ease and comfort all the rest of his days if he will disclose the secret confided to him—if his story is true. The Miami Chapter of the Daughters of the Confederacy, says The News, will furnish him a room and doubtless Camp Anderson, U. C. V., will otherwise care for him. Prominent Georgians have certified to his identity as President Davis' body-servant and for that reason, if not for his alleged great faithfulness to his trust, he deserves to have his simple wants provided for."

A FORESTRY SUGGESTION.

(Starke Telegraph.)

Now, when turpentine operators pay such high leases for pine trees that oftentimes an acre of trees brings more revenue to the farmer than an acre of corn it seems that he should give his woodland a little attention in order to hasten the growth of the trees. We refer to the thickets consisting mostly of Cuban or "slash" pine which spring up spontaneously in old fields and around swampy places. These trees are of comparatively rapid growth if the situation is not too wet, and after fifteen to twenty years are large enough to be tapped for rosin under the "cup" system. But they would reach this stage much sooner if a simple method of forestry was practiced. Why should not the farmer treat his woodland to a little "thinning out" as well as his corn field? This processs is as beneficial to the one as to the other.

When the wind blows cold on a wintry day, making work in the open field disagreeable, take a sharp, light axe and go to the sapling thickets. Where the trees average ten feet in height the smaller ones should be cut down to let the sun in and give more room to the thriftier trees. As they continue to grow some trees fall behind. They will eventually be starved out by their more vigorous brethren, but while they live they retard the growth of the latter and may as well be out of the way first as last. Keep up the thinning-out process, for it pays. Yet it is well to exercise some caution, for if given too much space, the tops of the trees will start too low down. Turpentine men like large-topped trees, as they give more gum; but after the tapping is over with the farmer wants his trees to give long timber free from knots, and such can only be had from trees with long stems.

The trees in the sapling thickets will never furnish any strong, lasting lumber, being mainly sap-wood; but the time is not far distant when consumers will have to take what they can get, and some process of making such lumber more durable will be invented to meet the necessity. Meanwhile it will pay owners to encourage the growth of timber on waste places by always leaving plenty of grown trees for seeding, keeping fires away from young timber, thin it out and drain the water away from the low grounds.

ANOTHER CHANCE FOR EXPANSION.

It is unofficially announced and officially denied that this country is in negotiation with Mexico for the purchase either of Magdalena Bay or the whole of Lower California where Magdalena Bay is situated. The story may or may not be true. Official denials do not go for much in delicate diplomacy negotiations, and the purchase of Lower California if it is contemplated would certainly come in this class. Of course everyone knows from the map where Lower California is. It is the big peninsula reaching down the west edge of Mexico and about corresponds geographically to Florida on the eastern edge of the continent. It is considerably bigger than Florida, but it has a population of only 45,000 and is mostly uninhabitable desert. In fact, they say in California proper that it is so dry down there that the fish have to carry canteens up the river to get enough to drink. But it is potentially a rich country, full of copper, and it is believed quite rich too in silver and gold. But what this country wants it for primarily is not for its minerals, but for the naval stations furnished by Magdalena Bay. This is a better location for a naval base than any other spot on the Pacific Coast. We have been using it as such by permission of Mexico, but to purchase or lease it would require an amendment to the Mexican constitution. Eventually it would be likely to be as good an investment for this country as was Alaska, and it has the advantage of being attached to the United States. In fact, it is geographically more a part of the United States than it is of Mexico. Its possession would immensely strengthen us if the Monroe Doctrine were ever seriously contested. If we must expand, it seems a promising direction for expansion.

Anything that is necessary is right. To others it may be not so appear, but you are responsible for your own acts and must therefore move within the range of your individual motives.

WILL PROSECUTE L'ENGLE.

In a "Card to the Public" in The Tampa Tribune of July 19th Editor Stovall says:

"As has been previously announced in The Tribune, criminal prosecutions will be instituted against Claude L'Engle, editor of The Tallahassee Sun, and against J. H. Reese, whose name appears as the author of the article in the last issue of The Sun, alleging a conspiracy on the part of Judge Stewart, of Manatee county, Col. Peter O. Knight and myself to have L'Engle removed from Tallahassee during the recent session of the Legislature. In pursuance of this intention, Mr. Knight and myself yesterday secured the services of Mr. John P. Wall and Mr. C. C. Whitaker of this city to assist in the prosecution of these persons for criminal libel, and affidavits were duly made before County Solicitor Raney upon which to base information for this offense. Other attorneys in Tampa and other cities of the State have also offered their services to us in this matter.

"The case will not be made the subject of further newspaper controversy on the part of The Tribune but will be attended to in the proper manner by the criminal court of record of this county. W. F. STOVALL."

Once Hudson Tuttle, the Ohio lecturer, was making an address in which he was outlining the pitfalls of the lecture platform. "One pitfall," Mr. Tuttle said, "is the unwise choice of examples and proofs. A temperance lecturer wished to prove to his audience the deadly power of whiskey. Accordingly he caused a drop of water to be magnified and thrown on a magic lantern screen. The picture was a terrible one. Worms bigger than pythons, crabs bigger than elephants, spiders the size of ships, fought together in that drop of water like fiends in the infernal region. The lecturer then caused a drop of whiskey to be added to the water. 'Watch, friends,' said he; 'watch the whiskey's effect.' The effect was marvelous; the liquor killed all those ferocious horrors instantly. Their vast claws and tentacles and feelers stiffened. All became peaceful and still. An old lady on the front row whispered hoarsely in her husband's ear: 'Wall, Jabez, that settles me. I'll never drink water agin' 'thout puttin' some whiskey in it.'"

Jacksonville has become alarmed at the threatened invasion of that city by the Georgia saloon men who will have to go out of business on the 31st of December, 1907, and an ordinance is now under consideration by the city council requiring nine months' bona fide residence in order to secure license to sell liquors. It is claimed that Jacksonville already has one saloon to every 56 white population over 21 years of age. The saloon men admit that there is already a strong sentiment in Jacksonville in favor of prohibition, and they fear that any material increase in the number of saloons would greatly increase such public sentiment against them.

THE CAUSES OF DISTRUST.

It has ever been true that distrust, such as we now observe in business and political affairs, has its cause in the men and things distrusted, and is not a mere caprice of the public mind. As to politics, the old maxim is that prudent jealousy is the first duty of the citizen. And as to business, the equally old maxim is, let the purchaser beware. The trouble in business now is that we have reached the limit of prosperity based on fictitious values, and the time has come for paying the penalties incident to dishonesty and recklessness. In politics the trouble is that our statesmen have acted in bad faith with the taxpayers, and have been found out. Hence this universal distrust, which threatens the existence of the dominant political party and the prevailing industrial and financial systems.

The New York Commercial says in Texas a law went into effect recently making it a felony to sell goods made by a "trust." Merchants, as well as agents and employes of "trusts," will be prosecuted and, if convicted, will be imprisoned in the penitentiary for terms varying from two to ten years. Ignorance of the fact that goods were made by a "trust" will be no excuse, as it is made the duty of the merchant to ascertain the status of the concern with which he is trading. This is rather the most hysterical of all the hysterical anti-"trust" legislation yet enacted. It must result in an increased cost of living in Texas, for the independent concerns will not fail to take advantage of the monopoly that this law will give them. It will keep the merchants of the Lone Star State awake at night, fearing that they have made a mistake in the pedigree of some article that they are offering for sale. It will provide a harvest for the lawyers, for it will open up a thousand questions of law and of fact bearing on the dispute as to whether goods were or were not made by a "trust" and if the Southern Cotton Association does not dissolve, the sale of cotton in Texas would be illegal.

We are not unduly suspicious, but a paragraph in the July "Sagebrush" set our thinker going just a bit: "If we should happen to mix it with Japan a year or so hence, General Kuroki's friendly visit recently to this country will then stand the little brown man in good stead. He has examined our principal sea coast fortifications, our academies at West Point and Annapolis, our storehouses of supplies, ammunition and navy yards—has reviewed our armies and had ample opportunity to size up our naval forces at Jamestown. It is recalled that this gentleman visited Russia before the ball opened over there and used his sleepy eyes to good purpose. General Kuroki's call may save him much time and trouble after a while."

A time-worn inquiry among schoolboys used to be: "What will happen when an irresistible force meets an immovable body?" The twentieth century substitute is: "What will our profit be when the United States Government has busted all the trusts?"

The big Claude L'Engle sensational bubble, which was due to engulf the fair State in a perfect frenzy of excitation, "busted" on schedule time July 13th. At just what hour or minute the dread catastrophe happened we are unable to determine, although we expected some super-human demonstration like an earthquake, sun standing still, etc. The bubble was filled with nauseating odors, which thanks to a stiff ocean breeze and alert board of health, will slowly drift outward on the still blue sea of oblivion.—Lake Butler Star.

The Price of Lumber.

The Georgia-Florida Lumber Association at its meeting at Atlantic Beach Monday proposed to carry resolutions reducing the output of the various mills of the association on the ground that the mill men are not receiving adequate pay for their product. In other words the association will force higher prices by reducing the output of lumber. The present prices of lumber is now so high that the man of limited capital cannot afford to attempt the erection of a decent home for himself and family. If lumber goes any higher the building will grow less as only the rich can afford to erect a building or own a home.—Titusville Star.

A Mosquito Theory.

The question of why the mosquitoes should be worse after a long drought has been discussed a good deal lately. The most plausible theory we have heard advanced so far is that the minnows that feed on the mosquito larvae, being killed by the ponds drying up, leaves the mosquito to breed free from its natural enemies. Anyway, the pests are here, and the best we can do is to cut down all bushes, weeds and grass that afford them shelter, rake up and burn all trash, see that there are no old tin cans or other unnecessary water receptacles around, and keep a little kerosene on top of the water in barrels, tanks and cisterns. If everybody will do this it will thin out the little pests very considerably. Let's do it.—Rockledge News.

THE CITY COUNCIL.

Adjourned Meeting, At Which Important Ordinance Was Passed.

An adjourned meeting of the City Council was held Friday afternoon, there being present President Broome, Aldermen Bunch, Cannon and Vidal, and Clerk Dell.

The meeting was called for the purpose of passing upon its third and final reading the ordinance providing for the issuing of city certificates on certain street paving contracts, which was passed.

A resolution fixing special assessments on property owners on certain streets was introduced and passed.

An ordinance requiring property owners to lay lateral pipes to connect with the sewers was read the first and second times and ordered engrossed, after which the Council adjourned until Monday afternoon at 3:30 o'clock.

Miller Got Three Months.

Conductor M. L. Gilmer of the Atlantic Coast Line, who is now running between High Springs and Burnett's Lake, has on several occasions proven himself quite shrewd in detective work, and his last venture was as much of a success as the former ones.

Captain Gilmer suspected Will Miller, colored, of stealing from freight cars and cabooses at High Springs, and early Saturday morning arrested him. When arrested the negro had in his possession a tremendous bunch of keys, being apparently prepared to unolck anything from a small satchel to a box car.

Miller was arraigned before Justice Bexley, who gave him a sentence of three months. He was immediately brought to the city by Captain Gilmer, delivered to the Sheriff, and Saturday night Deputy Sheriff Walker took him to Lennon, where he will begin his term.

This was quick work—but that's the way they do it in High Springs.

Appreciates the Spirit.

J. S. Cassie, manager of the Starke baseball team, writes The Sun in appreciation of the kind sentiment in reference to the "Tigers" upon the occasion of their visit here. Mr. Cassie says:

"I beg to assure you of the cordial appreciation of the Starke baseball team for the kindly mention of them contained in your issue of the 18th inst. The "Tigers" believe in good, clean ball played for all it is worth and are always glad of the opportunity to measure strength with as fine a set of fellows as compose the Oak Halls."

The Teachers' Debate.

The regular weekly debate of the teachers attending the Summer Normal was held at the auditorium Friday evening, and was well attended.

The question for debate upon this occasion was, "Resolved, That a Bachelor Over Twenty-Five Years of Age Should Pay a Tax," and was well presented on both the affirmative and negative. In fact, it was so well presented, and so intricate and well taken were the points, that the judges compromised and would not render a decision.

THAT ALLEGED "CONSPIRACY"

L'Engle Will Have To Prove His Charges In Court

AGAINST STOVALL AND KNIGHT

Examination of Western Union Office at Tampa Fails to Disclose Telegrams Claimed to Have Been Exchanged Between Stovall and Knight

(Tampa Evening News.)

As rapidly as the regulations of the company will permit, the files and records of the Western Union Telegraph Company, the highest and best evidence, are disclosing, with absolute certainty, the fact that The Tallahassee Sun's recent "conspiracy exposure" is the most pitiable "fake" ever attempted.

This morning, having received authority therefor from Supt. Dillon, at Jacksonville, the files of the local Western Union office were examined and every telegram sent to W. F. Stovall during the month of April and May were produced by Manager Davidson and examined.

Of the eleven "telegrams" published by The Tallahassee Sun as having been sent by Peter O. Knight to W. F. Stovall during those months (the months included in The Sun's "disclosures") ONLY ONE WAS EVER RECEIVED AT THE TAMPA WESTERN UNION OFFICE.

This solitary telegram reads as follows:

"Tallahassee, May 6, 1907. W. F. Stovall, care Tribune, Tampa, Fla. Wire me if you or anyone in Tampa has received the issue of The Sun of Sunday. If so, I intend to prosecute L'Engle in Tampa for libel. Show Thompson and Whitaker. P. O. Knight."

Not one of the other messages from Knight to Stovall, published in The Sun, was ever received at the local office and, therefore, never sent from Tallahassee. Each and every one of these ten others is a fabrication, pure and simple, concocted by a half-crazy sensationalist or his agents, to bolster up a "fake" sensation.

The one genuine telegram published above did not relate to the Manatee county cases against L'Engle in any way. It referred to a publication in The Sun which offended Col. Knight and led him to the determination to prosecute L'Engle. In order to bring this prosecution in Tampa, it was necessary to establish that the publication was circulated in this city; hence Col. Knight's inquiry of Editor Stovall.

More Coming.

Two additional investigations now in progress will complete the refutation of the L'Engle conspiracy story. Messages sent by Editor Stovall to Col. Knight at Tallahassee were "deadhead" messages; and, under the Western Union rules, all copies of "deadhead" messages file, once each month, sent to headquarters at New York for filing and preservation. In order to show just what messages were sent by Editor Stovall to Col. Knight, it will be necessary to have these copies returned from New York and Supt. Dillon, at Jacksonville, has written for them. When they arrive and are examined, they will show that the "telegrams" published by The Sun as sent by Stovall to Knight are equally "fakes."

Supt. Dillon is also making an investigation of the files of the Tallahassee office, the result of which will be known in a few days. These records, properly substantiated, will be in court when L'Engle is brought before a jury to answer for his shameless falsehoods.

One Instance.

One example of the sort of doctoring done by L'Engle to make up his "sensation" came to light yesterday. Col. Knight found the original of a telegram from John A. Graham to himself, at Tallahasse, dated May 18. In L'Engle's published version, this telegram reads:

"Can you meet me in Tampa Sunday to consult and take action in L'Engle matter?"

The original and genuine telegram reads:

"Can you meet me in Tampa Sunday to consult and take action in LEGAL matter?"

The word "L'Engle" fitted in so nicely with the "conspiracy" story that The Sun man didn't hesitate to substitute it for the word really appearing the telegram. But this little substitution was a small matter compared to the deliberate manufacture of entire telegrams which did not exist.

No Operation

Mrs. Malinda Akers, of Basham, Va,, writes: "I had what doctors call 'prolapse,' and couldn't stand straight. I had pain in my back and shoulders, and was very irregular and profuse. Doctors said an operation was needed, but I couldn't bear the thought of the knife. After taking three bottles of Wine of Cardui, I could walk around. Can now do my housework and am in splendid health."

Cardui is a pure, vegetable, medicinal essence, especially adapted to cure women's diseases. It relieves excessive periodical pains, regulates irregularities, and is a safe, pleasant and reliable remedy for all sick women. In successful use for over 70 years. Try it.

ENGINEER DECLARES ENGINE IS HAUNTED

Old "540" Pops Off And Cuts Capers When She Is Dead Cold.

ENGINEER FULLER'S EXPERIENCE

Cannot Sleep for the Continual Pranks of His Dead Engine, and Fireman Threatens to Quit His Job—Moved Nearly Fifty Yards Cold.

"I'll tell you, boys, I firmly believe that old engine is haunted," remarked Engineer Syd Fuller, one of the most popular engineers on the Atlantic Coast Line, in referring to his engine, No. 540, to a number of his friends Friday. "I have been in charge of old 540 on the Citra run for a long time, and I love her like a master loves his faithful dog, but I'll give you my word, boys, when that old engine is as cold as a cake of ice down in those woods at Citra, in the dead of night, you can hear her 'pop off,' and cut all kinds of capers, the same as if the steam is on full. I can't understand it, and it makes the cold chills run down my back when I hear it. My fireman is worse than superstitious, and it has got to a point where he absolutely refuses to sleep at the station, but prefers to walk a mile and a half to get a few hours' rest, rather than witness these hair-raising capers of old 540.

"You may not believe it," continued Engineer Fuller, "but these nightly capers are growing more exciting. A few nights ago I stopped my engine at the regular pit where we are accustomed to put her up. She went dead cold, and about the middle of the night I could hear her cutting up. I had gotten so used to it that my nerves had quieted to a proportionate degree. I felt sure that no harm would come to me, so I rolled over and went to sleep. You may believe me or not, but I can prove by the fireman and train crew that the next morning when the fireman came to kindle his fires old 540 was nearly fifty yards down the track from where we had left her the night before.

"My fireman is talking seriously about quitting me—and to be frank, if this thing don't stop pretty soon I am going to hunt a new pasture myself."

It is said that No. 540 has been in several wrecks, one or two men having met their death on her.

from their English experience, too. The bulk of the retail tobacco trade in the United Kingdom is held by a chain of stores all under the same management and known as Salmon and Gluckstein. The American trust was quick to take the hint, and on coming back home organized the United Cigar Stores Company, which now has retail establishments in practically all the cities of the country. Thus the trust is in both the wholesale and retail trade. It owns and controls the licorice, the tinfoil, the leaf tobacco, chewing and pipe tobacco, and cigar and snuff business. There are more than seventy subsidiary companies under the control of the trust, of which P. A. B. Widner and Thomas Fortune Ryan are the active heads. It consumes 500,000,000 pounds of the 800,000,000 pounds of tobacco raised in this country. The remainder goes to the British trust and a few of the European governments who keep up tobacco monopolies of their own.

It will be easily seen what an immense business it is, and if the Government wins its suit for dissolution and manages to throw the whole concern into the hands of a receiver, he will have his work cut out for him. At the same time, there is no reason why a receiver should not be found to run the business satisfactorily and on law-abiding lines. If the law as to rebates and commercial piracy are observed, the competition of the smaller firms will take care of itself. Then if the trust lowers prices to meet the new conditions, it will mean an uphill fight for the trust management to put them back again when they eventually get back into the saddle.

This is a bad week for trusts. The Government has entered suit against the Atchison, Topeka and Santa Fe railroad for rebating with the Garden City Land and Sugar Company. It is a case involving 65 cents, and a matter of only $12,000 in rebates. The minimum fine at $1,000 a case is $65,000, and the maximum $1,200,000. The case will be pushed for trial as soon as possible, and while the maximum fine probably will not be exacted, it will be heavy enough to be a warning to all the other roads to be either extra good or very careful.

Marriage Licenses.

Judge H. G. Mason within the past two or three days has issued marriage licenses to the following parties: E. Gotlin and Mrs. N. Jefferds, P. H. Croft and Lentia Long, white; Thos. Lewis and Jennie Brown, John H. Miles and Emma Truett, Johnny Gaines and Viola Jenkins, colored.

In the latter instance the groom is eighteen, the bride sixteen.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, unfits one for business and lessens ambition, sends the vigor of life and strength to the feet, and finally appears when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy, Swamp-Root, and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

GERMAN-AMERICAN DAY

At the Jamestown Exposition On August 1 to Be Great Event.

To celebrate the one hundredth and thirty-second anniversary of the German-American Declaration of Independence, the German-American Alliance, the Deutsch-Amerikan National Band, has arranged for a German day at the Jamestown Exposition. On August 1, 1775, eleven months before the Declaration of Independence, the Germans of Philadelphia, through the directors of the Lutheran and Reformed churches, published a manifesto which admonished to take up arms, and they began to drill for the conflict which they saw ahead.

Dr. J. C. Hexamer, president of the German Alliance, will deliver an address in English on the occasion of the Jamestown celebration on August 1st, in which he will revive the memories of that historical day in 1775. The "United Singers" of Washington, Baltimore and Richmond, several hundred voices strong, will sing choruses. The board of directors of the German Society has resolved to attend in a body and participate in every way to make the day a great event. The many branches of the German Alliance all over the United States have been notified of the event and no doubt will take the opportunity to pay a visit to the Exposition.

PLOUGHED UP CROSSING.

Engine of Atlantic Coast Line Played Havoc On West Main Street.

Engine No. 260, Atlantic Coast Line, pulling a south-bound freight train, played havoc at the crossing at Liberty and West Main streets a day or two ago, but in the performance lost her pilot.

The pilot seemed to set a little low for the elevation of the vitrified brick crossing, and the engine piled into the same at a fair rate of speed, completely ploughing up and demolishing the walk between the tracks, carrying some of the bricks for several feet. The pilot was wrecked by the concussion, however, and the locomotive was sent to the shops at High Springs for repair.

The bricks have been replaced, but there is now a depression which is not appreciated by pedestrians.

THE ORGAN RECITAL.

Presbyterian Church Well Filled to Hear Recital Friday Evening.

The First Presbyterian church was well filled to hear the organ recital Friday evening, and those present expressed themselves well pleased with the same, although there was perceptible some little imperfection in certain tones of the instrument. This was caused, however, on account of the stiff joints and failure of response, which will be remedied in two or three uses of the instrument, which is one of the finest on the market today.

The program throughout was very fine, and was appreciated by those who attended.

S. S. S. PURIFIES THE BLOOD

There is no other part of our physical system upon which so much depends as upon the blood. The muscles, nerves, bones, sinews, skin, and other portions of the body are sustained, developed and enabled to perform their different duties, because they are supplied with nourishment and healthful properties through the circulation. In various ways the blood becomes contaminated and polluted. A sluggish, inactive condition of the system, and torpid state of the avenues of bodily waste, will leave the refuse and waste matter of the body to sour and form uric and other acids, which are absorbed into the blood and Rheumatism, or some itching, disfiguring skin disease is the result. Muddy, sallow complexions, eruptions, splotches, pimples, etc., all show that some humor has taken root in the circulation and rendered it sour and unfit for nourishing the body. There is scarcely any disease which cannot be traced to the blood. Often the disease-tainted blood of parents is handed down to children and their lives are a continual battle against disease in some form, usually of a scrofulous nature. Rheumatism, Catarrh, Skin Diseases, Sores and Ulcers, Contagious Blood Poison, etc., are all deep-seated blood troubles, and until this vital fluid is purified they cannot be cured. For all blood diseases S. S. S. is the best remedy ever put upon the market. This great medicine is made of roots, herbs and barks of recognized blood-purifying and building-up properties. It goes down into the circulation and removes all poisons, impurities and humors, supplies the blood with the healthful properties it needs and completely cures blood diseases of every kind. S. S. S. cures Rheumatism, Catarrh, Scrofula, Skin Diseases, Sores and Ulcers, Contagious Blood Poison, etc., because it purifies the blood. Book on the blood and medical advice free.

Mrs. Alex Daughtrey and little son, Mildred, were in the city from their home at Rocky Point yesterday. Master Major is a very bright lad of five or six years, and will be remembered as taking the prize for being the finest looking baby at the last county fair here.

Miss Marie Richardson, formerly one of Alachua county's popular teachers, is now stenographer in the office of the county judge of Marion county. She writes the editor of The Sun that she is well pleased with her position, as well as Ocala and her good people.

300 acres—200 acres round timber, pine, hickory and oak, mostly good hammock land, and 100 acres in cultivation; good fencing; lies in one square body; has four good tenant houses; well located near railroad. A bargain. Call on Patterson & Steenburg for particulars.

Thomas Williams, the Newberry negro who made an unsuccessful attempt to burn his way to freedom from the Newberry jail several days ago, and who was himself terribly burned, is improving rapidly under the care of Dr. S. M. Dell, Jr., who has the case in hand.

Mr. and Mrs. J. E. Abrams and son are now pleasantly sojourning in East Tennessee, having gone for the benefit of the former's health. Before returning to Gainesville Mr. Abrams will make a tour of the various markets of the country in the interest of the Gainesville Furniture Company.

Miss Irene McCreary left yesterday for Salisbury, N. C., where she will be the guest of her friend, Miss Kate McCanless, at a house party for the next few weeks tendered by the latter. Miss McCanless was the guest of Miss McCreary last spring and is kindly remembered by the young people of Gainesville.

Mrs. W. S. Banks and daughter, Miss Flossie, after a delightful visit to relatives in Green Cove Springs, have returned to their home in this city. Mrs. P. F. McCook, who accompanied them to Green Cove Springs, will remain there for a few days, as she is rapidly recovering there from her recent illness.

L. A. Jernigan & Son, the jewelers are having their store considerably altered and improved. The walls are receiving new paper, and numerous changes in the room will be made when they will install a neat stock of jewelry in addition to their repairing department. They propose to run an ad in The Sun as soon as they can comply to their wish.

H. E. Williams, who owns an interesting pigeon farm in the northern section of the city, received yesterday by express from Jacksonville a number of the finest pigeons seen in this section of the country. There was a coop containing fifty or more which attracted a great deal of attention. It is understood that Mr. Williams is making a great success of this industry which is a very interesting place to visit.

From Saturday's Daily Sun.

Miss Pearl Futch of Alachua was shopping in the city yesterday.
